## 1. PURPOSE

Definition of an emergency: An emergency / major incident is any event or circumstance (happening with or without warning) that causes or threatens death or injury, disruption to the community, or damage to property or to the environment on such a scale that the effect cannot be dealt with by the emergency services, local authorities and other organisations as part of their normal day-to day activities.

### Aim of the Ripley Town Council Emergency Plan:

To increase resilience within the local community before, during and after emergencies, and to link into the county and district councils', and emergency services' emergency response structures. This Plan documents how (Ripley Town Council) would respond in an emergency situation e.g. while awaiting the assistance of statutory authorities / emergency services, or in support of them. It is not the role of the community to take on the responsibilities of these agencies e.g. to save life, to take any risks to themselves or to cope for long hours without agencies' help and support.

### Objectives:

- We have identified the risks to the community and relevant response actions.

- We have identified the need of vulnerable people / groups in the community.
- We have identified resources in the community available to assist during an emergency. Provide contact details for Ripley Town Council, key community resources, the Emergency Services and utilities and County and District Councils. (See attached Risk Register)

## 2. Ripley Town Council – May 2021-May 2022

## 3. Possible Emergencies and Risk Assessment

Risk assessment of the types of emergencies that would have an impact on our community and how local emergency planning could help.

Type of emergency	Potential risk	Actions to address those risks
Mains electricity power failure during cold weather	Residents with no access to power for a prolonged period of time. Most vulnerable are those with only electric power, heat, and cooking facilities. Also older residents, the sick and very young are most at risk in cold conditions.	Identify residents most at risk.
Road Closures	Flooding  Fallen trees etc.  Accidents.	How to get people to hospital when safe to do so.
Drain Flooding	People getting trapped in their home by flood water	Get out dry if possible, re-enter when safe to do so.
Extreme weather Storm damage, high winds, drought flood or snow.	Loss of life damage to properties.	Call on emergency services

		Help when safe to do so
Pandemic/illness	Threat to life	Stay indoors; let emergency service do their job.
Terror Attack Gun Bomb Driver	Threat to life	Call 999 and obey guidance
Gunman /shooting incident	Threat to life	Call 999 and obey guidance
Plane, helicopter Crash (Ripley is on the Flight Path)	Threat to life	Call 999 and obey guidance
Gunman Shooting incident	Threat to life	Call 999
Cyber Attack	No one able to access money communications

j)	Utilities going down. Water, electricity, gas, telephone and computer networks.	<b>Medium</b>
k)	Cyber-attack.	<b>High</b>
l)	Sink hole/mine collapse	<b>High</b>

### Have a Plan at home (see Household Emergency Plan)

- Find out about local risks that may affect you e.g. Flooding. Register for alerts.
- Know how and where utilities are
- Keep all documents up high in case of flooding.
- Prepare escape routes and teach all your family.

### Have an emergency grab bag:

#### Check lists

- Wind up/ battery radio, with spare batteries
- Torch with spare batteries, candles and matches

- First Aid Kit
- Medication, repeat prescriptions, toiletries etc.
- Spare Clothes
- Mobile Phone and charger
- Extra car and house keys
- Cash and cards

**The Emergency Plan will be reviewed yearly at the May Annual Council Meeting.**
